Allowable Subject Matter

Upon review of the filed record and the brief filed on 2/21/2006, the rejection of claims 1-22 is withdrawn.

1. Claims 1-22 are allowed.

The following is an examiner's statement for reasons for allowance.

2. Claims 1, 7, 12 and 18 are allowable over the prior art of record since the cited references taken individually or in combination fail to particularly teach or fairly suggest establishing a quality of service (QoS) threshold at an upper protocol layer and determining whether a QoS metric for at least one selected route from at least one source mobile node falls below the QoS threshold at at least one intermediate protocol layer below the upper protocol layer and adjusting signal reception gain or pattern based on a determination that QoS metric has fallen below the QoS threshold at a lower protocol layer below the intermediate protocol layer.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
